Product Information:

Curved fiber flap disc

High performance, extremely aggressive ceramic disc with the hig hest grinding speed in the line.

Designed for metalworkers to be as fast and efficient as possible w ithout overheating on steel and stainless steel.

Polyester flaps to resist edges and high pressure in extremely inte nsive use.

The convex shape of the support allows working on an angle of 15 $^{\circ}$ to 25 $^{\circ}$ while maintaining a good sanding surface

Applications: steels, special steels, stainless steel, cast iron, alumin Product support Fibre support um and non-ferrous metals.

Abrasive: High performance ceramic Used mainly on high power grinders.
