Product Information:

"Mobile work table with a surface of 1400 x 700 mm.
Converts the PRO TABLE 1800 into a mobile multi-purpose workstation on the construction site, allowing for ergonomic working conditions.
The table with the L-BOXX system can be flexibly attached to all L-BOXX boxes.
The regular 20 mm holes in the tabletop allow the use of, for example, stop pins, clamping tools such as clamps or clamp plates.
The central hole has a diameter of 150 mm and is suitable for drilling into tiles and other materials.
The system is modular in order to provide several combinations of assemblies with the trestles via the L-BOXX interface.
The folding trestle is equipped with an anti-return safety system and has height-adjustable legs for a perfect leveling of the table.
The wooden table top is made of beech multi-ply with recognized mechanical properties thanks to the strength and durability of the beech wood.
Compact set, easy to transport and to store.
Easy to use and to assemble on site."

Technical characteristics:

Height (cm) : 86.00
Width (cm) : 70.50
Length (cm) : 140.00
Net weight (Kg) : 23.00
Characteristic 1
Material Beech multi-ply
Hole Yes

"Delivered with :

- all-metal trestle
- L-BOXX interface"
