Product Information:

Curved fiber flap disc
High performance, extremely aggressive ceramic disc with the highest grinding speed in the line.
Designed for metalworkers to be as fast and efficient as possible without overheating on steel and stainless steel.
Polyester flaps to resist edges and high pressure in extremely intensive use.
The convex shape of the support allows working on an angle of 15° to 25 ° while maintaining a good sanding surface
Applications: steels, special steels, stainless steel, cast iron, aluminum and non-ferrous metals.
Abrasive: High performance ceramic
Used mainly on high power grinders.
