Product Information:

Support table for ultra-thin ceramic sandstone slabs in large format, and c eramic tiles.
The table is modular to provide a complete system of combinations of tile lengths and widths.
Adjustable width from 1000 to 1500 mm.
Length: a table 1800 mm, 2 tables 3600 mm.
The separation of the adjustable aluminum bars allows cutting and drilling without damaging the table.
The aluminum bars and steel feet give the whole thing a high stability and stiffness.
Quick bar attachment system without tools or screws, allowing easy stora ge for transport.
The foldable legs are equipped with an anti-return safety system and com e with adjustable feet in height for a perfect level of the table.
The table is made up of:
- 5 1800 mm long aluminium bars
- 2 expandable bars for a capacity of between 1000 and 1500 mm
- 8 steel legs
Lightweight, easy-to-carry and easy-to-use set.
Optional connection kit, two assembled tables allow a tile length up to 360 0 mm
An optional side-cutting kit, a tile can be cut wide safely.

Technical characteristics:

Height (cm) : 20.00
Width (cm) : 30.00
Length (cm) : 185.00
Net weight (Kg) : 30.00
Tile width (mm)
Tile thickness (mm) 3 to 10
Capacity (kg)
